# MAKE ISRAEL PAY FOR WAR CRIMES IN GAZA

Across the world there are growing calls that Israel should be investigated for committing war crimes during its murderous assault on Gaza.

There can be little doubt that Israel is guilty of multiple and systematic breaches of International laws governing military action, by deliberately targeting civilians, using banned weapons and obstructing medical assistance reaching the victims of the conflict.

Over 1300 Palestinians were killed, including 300 children and more than 3000 were maimed and injured.

Israel bombed schools, UN buildings, markets, mosques and densely populated residential areas.

Israel also bombed police stations and other civic buildings, massacring those inside, though they were in no way involved in the military confrontation between Israel and Hamas

In two particularly shocking attacks, Israel bombed a UN school building with 120 people - mostly children - inside, killing 40 people and, in another case, marched a family into a building, then bombed it, killing 30 people.

There is now overwhelming evidence that Israel illegally used "white phosphorous" bombs and growing evidence they used other experimental chemical weapons.

Israel lied brazenly to world claiming that their action was retaliation for Hamas rocket attacks.

In fact, it was Israel that was responsible for multiple breaches of the six month long Egyptian brokered truce that preceded the recent Israeli onslaught - including imposing a criminal blockade on humanitarian aid into Gaza, and the assassination of six Palestinians on November 4th last year.

Leading figures from the UN and International Red Cross, as well as human rights organisations, are demanding that Israel must be investigated for war crimes.

Yet, world leaders are ignoring these calls and disgracefully several EU Prime ministers met with Israeli leader Ehud Olmert just after the assault on Gaza ended and laughed and smiled with the man responsible for the Gaza slaughter.

Ordinary people across the world - horrified at Israel's actions in Gaza - must take to the streets to demand that Israel is punished for its crimes and that the brutal oppression of the Palestinian people is finally ended.

Come to the protest at the Israeli Embassy on Wednesday Jan 28th from 5-7pm.
